

# Public transport reform in Indonesia

- Organization reform: to reform existing regulatory policies and operational practices
- Priority systems: bus ways, bus lanes, bus priority at traffic signals
- New bus stops (shelters)
- Smartcard system

# Public Transport Reform in Jakarta: Trans Jakarta

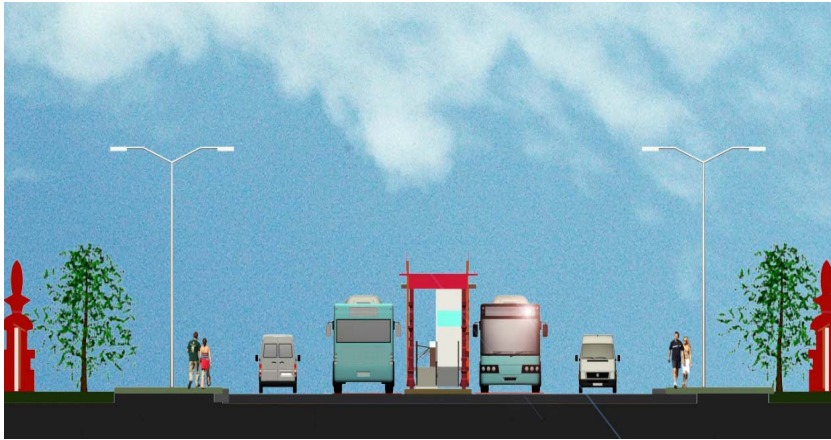

# Public Transport Reform in Yogyakarta: Trans Jogja

# New bus stops (shelters): small shelter

# A comparison

## Trans Jakarta:

- Special bus lane in the middle of the road
- Shelter in the middle

## Trans Jogja:

- no special lane for buses
- Shelter on the side of the road

# Organization reform

- Reform the existing regulatory policies and operational practices
- New bus management system, buy the service, there will be a minimal standard
- Organized by a joint organization among the government, ORGANDA, cooperatives and bus operators
